

RYA Interactive

Get ready for your radio course

If you're thinking about using the winter months to take a VHF radio course, why not take a look at our RYA Interactive site? There you will find an online quiz designed to check whether you are ready to take the RYA VHF Short Range Certificate (SRC) course.

The course can be taken at a range of recognised training centres and requires students to have some background knowledge beforehand, enabling the trickier parts of the subject to be concentrated on during the course. For example, you need to have a basic understanding of distress procedures and the phonetic alphabet, and our online quiz will help you determine whether you understand enough about those areas to be well prepared for your course.

Take a look at the pre-course knowledge check at www.ryainteractive.org. Anyone can have a go – there's no need to register and your score won't be recorded!

Our *RYA VHF Radio (inc GMDSS)* and *RYA VHF Radio Short Range Certificate Syllabus & sample exam questions* books are essential reading for anyone

taking a VHF course and complement the RYA VHF/SRC radio courses. Both titles are a handy size, low priced and packed full of vital information.

RYA VHF Radio (inc GMDSS) has recently been revised and updated to keep in line with the RYA VHF/SRC courses. It covers all radio procedures from routine to urgency and distress calls, and includes extracts from the Maritime Guidance Notes on the proper use of VHF channels at sea. Members' price £5.09. Order code G22.

The *RYA VHF Radio Short Range Certificate Syllabus & sample exam questions* includes practice questions, extracts from the Maritime Guidance Notes on the use of VHF at sea and dangers in the use of VHF radio in collision avoidance. Members' price £3.39. Order code G26.

Both books can be ordered from the RYA shop on 0844 556 9518 or visit www.rya.org.uk
