

ECUMULUS

£9,950.00

For Sale is my beloved boat due to an increasing family and subsequent lack of use! Ecumulus is a quick cruiser (just ask some of the cruiser members), with a racing pedigree as the Ecume de Mer was a quarter ton cup winner in the 70s.

She is 26' long with a beam of 8', and a draft of 4'6", single fin. She has upto 6 berths, 1 double forward, 1 double in the main cabin and 2 singles port and starboard aft. Internally she has just had a new galley refit and new cushions throughout.

She also has a new Harken roller reefing gear and new rolling headsail by Crusader. GPS navigation, with cockpit repeater and mast top wind indicator with cockpit repeater. Powered by a Yanmar GM10 diesel inboard engine. Galvanised cradle included.

Much more to see so contact Roland Plumb for more details and a viewing. She is in the boat park until launch day in April then on a mooring in Emsworth for the summer.
